3rd Place in the National Scientific Poster Festival Riau University	Oct 2023
1st Place for ITS 62nd Anniversary in Men's Basketball Competition	Oct 2022
Semifinalist of Electra 10 National Olympics	Feb 2021
Finalist of National Programming and Logic Competition	Jan 2021
Finalist of Universitas Airlangga Stock Exchange Competition	Nov 2020

Certifications and Trainings

Agile Scrum Fundamentals - MindMagine	May 2025
AI Intermediate - Ministry of Communication and Digital Indonesia	Apr 2025
Cloud Computing: Intermediate Level -Ministry of Manpower Indonesia	Aug 2024
Data Analysis Using Python - Dicoding Indonesia	Aug 2024
Microsoft Office Specialist: Excel Associate	Jul 2024
Google IT Support Specialization	May 2024
Google IT Automation with Python Specialization	Mar 2024
Mini Bootcamp React JS - Telkom Indonesia	Oct 2023
Junior Web Developer - Indonesian Professional Certification Authority	Sep 2023

Projects

Coil Burn Duration Inspection System using Convolutional Neural Network

Nov 2024 - Jul 2025

- Developed an automated inspection system as part of an undergraduate thesis in collaboration with SC Johnson, achieving 100% accuracy compared to manual methods and potentially reducing inspection workload equivalent to up to 4 QC personnel.
- Built using YOLO, OpenCV, Flask API, and MySQL, with features to count burn duration and store detection videos and burning duration data each coil automatically.

Digital Nervous System for QC: Real-Time Traceability and Smart Connectivity

Sep 2024 - Jul 2025

- Developed a cross-platform inspection and reporting app using Microsoft Power Platform and Microsoft 365, enabling real-time data input via PowerApps on tablets or lab computers.
- Reduced paper usage and workload across 6 labs, enabling lighter operations and up to 75% faster processing and decision-making through real-time dashboards and automated CoA generation.

Web Development for Office Management, Train Service, and ERP Business Processes

Feb 2024 - Jun 2024

- The project was carried out as one of the assignments during internship at PT INKA
- Using Laravel Framework with MySQL database and using several libraries such as Bootstrap, Select2, and others

Freelance Software Developer

Mar 2024 - Jul 2024

- Have got 2 clients in creating a web company profile.
- Uses native programming language with several JavaScript libraries, such as AoS and GSAP.

Development of a Digital-Based Waste Management Technology Model

Sep 2023 - Dec 2023

- Collaboration with the Ministry of Villages, Development of Disadvantaged Regions and Transmigration of the Republic of Indonesia.
- The output comes in the form of policies and an Android-based application on Play Store named R3its, as well as a website named r3its.com.

Web and Mobile Based Application for Marketing Village Commodities

Mar 2023 - Aug 2023

- Collaboration with Pesanggrahan Village, Batu City.
- The output includes a community service journal, as well as a website named kopipanderman.com and an Android-based application on Play Store named Kopi Panderman.
